INFORMATION

File Requirements

When submitting files to us, please ensure that they are:

- 300 DPI
- Adobe RGB (1998) colour space
- 8-bit flattened TIFs or JPEGs

Files need to be sized as you would like them printed. For example, if you require a 16" x 20" print, your file needs to be sized at 16" x 20" (including any borders). If you are framing your images and would like us to leave the print on the roll with our bleed and cut marks left around the image, please specify this when placing your order. Unless otherwise stated, you need to add cost of prints plus cost of mounting.

All prices include GST.

FRAMING

GLASS /
MAT BOARDS /
CUSTOM FRAMING

How to calculate Cost of Framing.

The cost of framing is determined using united centimetres or inches, which is simply the short side plus the long side, as indicated in the below formulas:

Length in cm + Width in cm = ucm

Length in inches + Width in inches = uin

After determining your united measurement, refer to the table on the following pages to determine the cost of your mounting. If your united measurement is not listed, please use the next price up. For example, 65 united inches will be charged at the 67 united inches rate.

Shipping Framed Prints

If we are shipping your mounted print to you, you will need to add the cost of heavy-duty packing to your order as follows:

■ Small	Up to 12 x 16 inches	\$15
■ Medium	Up to 20 x 30 inches	\$35
■ Large	Up to 30 x 40 inches	\$55

Shipping costs for larger frames will be higher and will vary depending on the size of the frame.

Glass Options

We offer several glass types such as art glass, non-reflective glass and perspex. We generally do NOT ship any frames with glass, however we can source external Art moving services if required.

Mat Boards

To calculate the cost for a frame plus a mat board, you need to add the size of the mat to the size of the print to obtain the overall united measurement. For example, for a print size of 20cm x 30cm, (50ucm or united centimetres) the default mat size is 50mm, so the new ucm size would be 70ucm.

Customwood – 9mm & 12mm (4 to 5 days)

Default Hanger: Wooden hanger (add \$17.50)

Any paper can be mounted on this product. Customwood is an MDF and as such it can get heavy, so we generally do not recommend using the 9mm and 12mm versions of this product for prints over 20 x 30 inches. Please specify black or white edging when you place your order.

Acrylic Blocks – 30mm (7-10 days)

Acrylics are super smooth and strong, ideal for mounting of high-gloss prints. Clear acrylic is also used for face mounting where the print is mounted under the acrylic using optically clear adhesive. We supply acrylics in 3mm, 6mm and 10 mm.
