## INFORMATION

## File Requirements

When submitting files to us, please ensure that they are:

- 300 DPI
- Adobe RGB (1998) colour space
- 8-bit flattened TIFs or JPEGs

Files need to be sized as you would like them printed. For example, if you require a $16^{\prime \prime} \times 20^{\prime \prime}$ print, your file needs to be sized at $16^{\prime \prime} \times 20^{\prime \prime}$ (including any borders). If you are framing your images and would like us to leave the print on the roll with our bleed and cut marks left around the image, please specify this when placing your order. Unless otherwise stated, you need to add cost of prints plus cost of mounting.

All prices include GST.

## FRAMING

## How to calculate Cost of Framing.

The cost of framing is determined using united centimetres or inches, which is simply the short side plus the long side, as indicated in the below formulas:

## Length in cm + Width in $\mathbf{c m}=u \mathrm{~cm}$

## Length in inches + Width in inches = uin

After determining your united measurement, refer to the table on the following pages to determine the cost of your mounting. If your united measurement is not listed, please use the next price up. For example, 65 united inches will be charged at the 67 united inches rate.

## Shipping Framed Prints

If we are shipping your mounted print to you, you will need to add the cost of heavy-duty packing to your order as follows:

| - | Small | Up to $12 \times 16$ inches |
| :--- | :--- | :--- |
| - | Medium | Up to $20 \times 30$ inches |
| - | $\mathbf{\$ a r g e}$ | Up to $30 \times 40$ inches |
| $\$ 55$ |  |  |

Shipping costs for larger frames will be higher and will vary depending on the size of the frame.

## Glass Options

We offer several glass types such as art glass, non-reflective glass and perspex. We generally do NOT ship any frames with glass, however we can source external Art moving services if required.

## Mat Boards

To calculate the cost for a frame plus a mat board, you need to add the size of the mat to the size of the print to obtain the overall united measurement. For example, for a print size of $20 \mathrm{~cm} \times 30 \mathrm{~cm}$, ( 50 ucm or united centimetres) the default mat size is 50 mm , so the new ucm size would be 70 ucm .

## Options

| Mount | Description |
| :--- | :--- |
| Gataboard | A lightweight yet strong board, Gataboard (or Gatorboard) features <br> a polyfoam core with a hard, melamine-impregnated surface, <br> making it ideal for large works, long-term applications and premium <br> backing in frames. |

Ready-to-hang Canvas

Customwood

Neatly stretched on a robust frame, our high-quality canvases are ready to hang effortlessly, making them perfect for hassle-free display, particularly for larger frames.

Smooth, strong and heavy, Customwood, or MDF, is an excellent general-purpose mounting option where weight is not a concern.

These blocks provide a fantastic 3D look without the need for stands or hanging. With diamond-polished edges and hand-finished details, they make perfect gifts, travel mementos or display items.

Enhancing colours and providing UV protection and rigidity, Acrylic Panels are an excellent choice for visually stunning and long-lasting photo displays.

With a clean, borderless and frameless design, Acrylic Artframes add a modern 3D relief from the wall. Their versatility makes them suitable for home, office and photo exhibitions.

Combining clarity and sparkle of acrylic images with the natural beauty of timber, Acrylic Shadow Frames elegantly accentuate the image for a stunning and classy look.

Custom Cold Satin Laminate

A pressure-sensitive cold laminating film made of PVC, Custom Cold Satin Laminate serves various general-purpose laminating needs with a stylish satin finish.

## Gataboard $-5 \mathrm{~mm}, 10 \mathrm{~mm}$ \& 20 mm (4-5 days)

Default Hanger: Lightweight hanger (add \$6.00)

We offer Gataboards in $5 \mathrm{~mm}, 10 \mathrm{~mm}$ and 20 mm . The 10 mm and 20 mm come with black or white edging as a finish - please specify colour when placing your order. The 5 mm does not come with edging and is exposed foam only. Any paper can be mounted on this product but we generally advise against Fuji Flex.

## Customwood -9mm \& 12mm (4 to 5 days)

Default Hanger: Wooden hanger (add \$17.50)

Any paper can be mounted on this product. Customwood is an MDF and as such it can get heavy, so we generally do not recommend using the 9 mm and 12 mm versions of this product for prints over $20 \times 30$ inches. Please specify black or white edging when you place your order.
