# PRICELIST 2023

PRINTING | FRAMING | MOUNTING

# FILE REQUIREMENTS

When submitting files to Pixel Perfect, you need to make sure they are :

- **300 DPI**
- **Adobe RGB (1998) colour space**
- **8-bit flattened Tiffs or Jpegs**

Files need to be sized as you would like them printed, so if you require a 16" x 20" print, your file needs to be sized at 16" x 20" (including any borders). Unless specified, we will always trim your print down to the size ordered. If you are framing your images and would like us to leave the print on the roll with our bleed and cut marks left around the image, please specify this when placing your order. Please see our separate mounting price list via the link on the right. Unless otherwise stated, you need to add cost of prints plus cost of mounting. All Prices include GST.

Sydney Metro: (1-2 days) **\$20.00**

Capital cities and regional areas in all states except the below (2-4 days): **\$25.00**

NT and WA (3-7 days): **\$30.00**

You are welcome to collect from Pixel Perfect and there are no additional packing fees for pick up orders

All payments need to be finalised prior to shipping or upon collection

**IMPORTANT:** Minimum charge for all orders is \$25  
So please order a few extra prints or larger sizes if your order will be less than the minimum amount.

# Fine Art Inkjet Printing

## 2-3 working days

For custom sized prints, the prices are calculated using this formula:  
 Length x width in Inches x \$0.172 = Cost of print □ Length x width in Inches  
 x \$0.207 = Cost of print for photo and Natural line papers.

The table below shows the cost for standard sized prints.

# FRAMING

GLASS OPTIONS

MAT BOARDS

CUSTOM FRAMING

# FILE REQUIREMENTS

## How to Calculate the cost of Framing

The cost of framing is determined using UNITED cm's or inches, or simply put the short side plus the long side. This is explained here:

**Length + Width = UNITED Inches / Cm's**

Once you have determined your united measurement, use the two columns on the far left to find out the cost of your mounting. If your united measurement is not there, please use the next price up. (eg. 65 UNITED INCHES will be charged at the 67 UNITED INCHES rate)

## SHIPPING FRAMED PRINTS

If we are sending your mounted print to you, you must add the cost of heavy duty packing to your order.

Small (up to 12 x 16 inches) \$15.00

Medium (up to 20 x 30 inches) \$25.00

Large (up to 30 x 40 inches) \$35.00

Shipping costs for larger frames will be higher and depend on the size of the frame.

## Glass Options

We offer several glass types such as art glass, non reflective glass and perspex options, see the pricing below. We are unable to ship any frames with glass, although there are external freight companies we can recommend if you choose.

## Mat Boards

To calculate the pricing for a frame PLUS a mat board you need to add the size of the mat to the size of the print to get the overall united measurement. (eg. Print size = 20 x 30 cm – the default mat size is 50 mm (5 cm) Add these together – 20 cm + 30 cm + 5 cm on all four sides = 70 united cm's)

## Custom Framing

If you choose to add a mat to your frame, you can specify your own preference for mat widths, however we use default widths if not specified.

# MOUNTING

## How to Calculate the Cost of Mounting

Pixel Perfect uses inches to calculate pricing. The cost of mounting is determined using 'united' inches or cm's. This refers to:

### **Length + Width = United Inches / cm's**

Once you have determined your united measurement, use the two columns on the far left to find out the cost of your mounting. If your united measurement is not there, please use the next price up. (eg. 65 UNITED INCHES will be charged at the 67 UNITED INCHES rate) Don't forget to add the cost of hangers if required.
