Information

File Requirements

When submitting files to us, please ensure that they are:

- 300 DPI
- Adobe RGB (1998) colour space
- 8-bit flattened TIFs or JPEGs

Files need to be sized as you would like them printed. For example, if you require a 16" x 20" print, your file needs to be sized at 16" x 20" (including any borders). If you are framing your images and would like us to leave the print on the roll with our bleed and cut marks left around the image, please specify this when placing your order. Unless otherwise stated, you need to add cost of prints plus cost of mounting.

All prices include GST.

01 Printing

Services:

Fine Art / Giclee printing / premium photo printing
Metal / Minilab / commercial / posters / documents

01

Fine Art Printing

Turnaround time: 2–3 Working Days

To make sure you don't pay any more than you should, we calculate our costs based on square inches. To determine the cost of your print, please use the formula:

Length in inches x Width in inches x Cost per sq in = Cost of print

For example, you have a custom size (14x11").

14 x 11 x 0.181 = \$27.87 (Cost of matte paper print)

The table below shows the cost for standard-sized prints.

Size (in / cm)	Fine Art Matte papers / Kodak Gloss Matte / Ilford Smooth / Canvas	Natural Line Papers / Hahn Rag Pearl / Hahn Rag Metallic /
A4 (26.69x21.01cm)	\$17.50	\$21.01
12x10" / 30.48x25.40cm	\$21.72	\$26.08
14x11" / 35.56x27.94cm	\$27.87	\$33.47
16x12" / 40.64x30.48cm	\$34.75	\$41.72
A3 (16.54x11.69cm)	\$34.99	\$42.02

02 Framing

Services:

Custom framing / Glass / Mat boards
/ shipping / packing

02

How to calculate cost

The cost of framing is determined using united centimetres or inches, which is simply the short side plus the long side, as indicated in the below formulas:

Length in cm + Width in cm = ucm

Length in inches + Width in inches = uin

After determining your united measurement, refer to the table on the following pages to determine the cost of your mounting. If your united measurement is not listed, please use the next price up. For example, 65 united inches will be charged at the 67 united inches rate.

Packing for shipping framed prints

Pixel Perfect offers white label shipping and delivery with tracking anywhere in the world. If we are shipping your mounted or framed print for you, heavy-duty packing needs to be added to your order. Each order will vary depending on weight and size so these prices are a rough guide.

- | | | |
|----------|----------------------|---------------------|
| • Small | Up to 12 x 16 inches | \$20 |
| • Medium | Up to 20 x 30 inches | \$30 |
| • Large | Up to 30 x 40 inches | \$50 - \$100 |

We do not generally ship any frames with glass, so Perspex will be used if shipping is required. We offer art courier services for larger or multiple works, they work like removalists but specifically for large artworks. These services are by appointment and can be discussed when ordering.

Glass Options

We offer several glass types such as art glass, non-reflective glass and Perspex. We are unable to ship any frames with glass, although we can recommend external freight companies if you choose.

Mat Boards

To calculate the cost for a frame plus a mat board, you need to add the size of the mat to the size of the print to obtain the overall united measurement. For example, for a print size of 20cm x 30cm, the default mat size is 50mm.

Standard Size	ucm	uin	Standard Frame	Deluxe Frame	Box Frame	Premium Frame	Space Frame

Mounting Options

Mount	Mount Description	
Gataboard	A lightweight yet strong board, Gataboard (or Gatorboard) features a polyfoam core with a hard, melamine-impregnated surface, making it ideal for large works, long-term applications and premium backing in frames.	
Ready-to-hang Canvas	Neatly stretched on a robust frame, our high-quality canvases are ready to hang effortlessly, making them perfect for hassle-free display, particularly for larger frames.	
Customwood	Smooth, strong and heavy, Customwood, or MDF, is an excellent general-purpose mounting option where weight is not a concern.	
Alupanel	Combining aluminum-skinned composite boards with a poly core, Alupanels offer exceptional strength, smoothness and archival properties, making them the go-to choice for high-end archival mounting.	
Acrylic Blocks	These blocks provide a fantastic 3D look without the need for stands or hanging. With diamond-polished edges and hand-finished details, they make perfect gifts, travel mementos or display items.	
Acrylic Panel	<p>Enhancing colours and providing UV protection and rigidity, Acrylic Panels are an excellent choice for visually stunning and long-lasting photo displays.</p> <p>With a clean, borderless and frameless design, Acrylic Artframes add a modern 3D relief from the wall. Their versatility makes them suitable for home, office and photo exhibitions.</p> <p>Combining clarity and sparkle of acrylic images with the natural beauty of timber, Acrylic Shadow Frames elegantly accentuate the image for a stunning and classy look.</p>	 
Custom Cold Satin Laminate	A pressure-sensitive cold laminating film made of PVC, Custom Cold Satin Laminate serves various general-purpose laminating needs with a stylish satin finish.	

03

Gataboard – 5mm, 10mm & 20mm

Turnaround time: 4–5 Working Days

Default Hanger: Lightweight hanger (add \$6.89)

We offer Gataboards in 5mm, 10mm and 20mm. The 10mm and 20mm come with black or white edging as a finish – please specify colour when placing your order. The 5mm does not come with edging and is exposed foam only. Any paper can be mounted on this product but we generally advise against Fuji Flex.

Acrylic Blocks – 30mm

Turnaround time: 7–10 Working Days

Acrylics are super smooth and strong, ideal for mounting of high-gloss prints. Clear acrylic is also used for face mounting where the print is mounted under the acrylic using optically clear adhesive.

Approximate Size (in)	Finished Size (in)	Required Print Size (mm)	Photo Block 30mm & Kodak Gloss	Photo Block 30mm & Kodak Pearl

Custom Cold Satin Laminate

Satin laminate enhances the durability of your prints while preserving their visual appeal. It provides a subtle, glare-reducing finish that resists fingerprints, moisture, and UV damage, ensuring longevity. Ideal for both display and handling, satin laminate protects your artwork or photos without compromising color vibrancy or detail.

04 Shipping

Services:

Framing / Packaging / Delivery

04 Delivery Fee

You are welcome to collect from our shop and there are no additional packing fees for pick-up's. All payments need to be finalised prior to shipping or upon collection.

We offer white label shipping, or branded labels for "print on demand" work. We can deliver anywhere in Australia or worldwide with tracking on all parcels, which will be emailed to you on departure of your work.

Location	Delivery Timeframe	Cost
Sydney Metro (1-2 days)	1-2 days	\$20.00
Rest of NSW, VIC, QLD, SA, TAS	2-4 days	\$25.00
NT, WA	3-7 days	\$30.00
Overseas	Varies according to country	\$50.00

Art Couriers

For larger works with regular or art glass, we use professional art couriers to ensure your artwork arrives safely. Specializing in delicate and high-value pieces, they offer careful handling and climate-controlled transport. Trusted by galleries and collectors, art couriers provide peace of mind, ensuring your prints or originals reach their destination in pristine condition, ready to display.

Packing Fees

If work is being collected it will come with basic protection, bubblewrap, frame corners etc. If we ship using couriers, we need to pack appropriately so much more robust packing is needed. Price varies depending on the size of the work.
